

APCO Performance Summary

Company Name: **Beak & Johnston Pty Ltd**

Trading As: **Beak & Johnston**

ABN: **18108805974**

Overall Performance 67% - Leading

The score above and chart below indicate your organisation's overall performance in the 2024 APCO Annual Report. With your chosen reporting period of **January, 2023 - December, 2023** you have achieved a **Leading** overall performance level.

Criteria Performance Levels

The chart below indicates your organisation's performance against each of the Packaging Sustainability Framework criteria in the 2024 APCO Annual Report. Each band represents a performance level with the green indicating your level of performance for each.

About APCO Annual Reporting

Understanding APCO Annual Reporting performance levels:

- 1 Getting Started:** You are at the start of your packaging sustainability journey.
- 2 Good Progress:** You have made some first steps on your packaging sustainability journey.
- 3 Advanced:** You have taken tangible action on your packaging sustainability journey.
- 4 Leading:** You have made significant progress on your packaging sustainability journey.
- 5 Beyond Best Practice:** You have received the highest performance level and have made significant progress on your packaging sustainability journey.

Packaging Sustainability Framework criteria

Criteria 1: Governance & Strategy	This criteria considers actions to integrate packaging sustainability into business strategies.
Criteria 2: Design & Procurement	This criteria considers actions taken to ensure that sustainability principles are considered in the design or procurement of both new and existing packaging through use of the Sustainable Packaging Guidelines (SPGs).
Criteria 3: Recycled Content	This criteria considers actions taken to increase or optimise the amount of recycled material used by your organisation.
Criteria 4: Recoverability	This criteria considers actions taken to improve the recovery of packaging at end-of-life and increase use of reusable packaging.
Criteria 5: Disposal Labelling	This criteria considers the extent to which packaging has been labelled to help consumers determine what to do with packaging at end-of-life.
Criteria 6: On-site Waste	This criteria considers progress in increasing the amount of on-site solid waste being diverted from landfill.
Criteria 7: Problematic Materials	This criteria considers the extent to which organisations are actively phasing out problematic and unnecessary single-use plastic packaging and preventing/reducing litter.

APCO Annual Report Criteria Performance & Responses

Provided below are your organisation's responses to the questions within the APCO Annual Report as well as a performance level for each criteria.

Criteria 1:

Governance & Strategy: 5 Beyond Best Practice

Does your organisation have a documented strategy that includes goals (objectives) and targets for packaging sustainability that addresses the Sustainable Packaging Guidelines (SPGs) or equivalent? Yes No

Does your organisation's strategy include a commitment to achieving the 2025 National Packaging Targets? Yes No

Is this strategy integrated within your business processes and has it been approved by an executive or board of directors? Yes No

Do you regularly communicate and promote packaging sustainability objectives and targets within your organisation? Yes No

Do you regularly engage or communicate with external stakeholders (suppliers, final consumers, community groups etc.) about the environmental impacts of your packaging? Yes No

Do you actively participate in any other initiatives to promote packaging sustainability outside of your organisation? Yes No

Supporting Evidence

- A project plan for using CEFLEX-compliant film across the range of our products was established and communicated to both internal & external customers.
- The ARL logo is fully communicated in the back of the pack (BOP) of a consumer unit.

Criteria 2:

Design & Procurement: 4 Leading

How many of your 2834 Tonnes of packaging have had their packaging reviewed against the Sustainable Packaging Guidelines (or equivalent) in the last 5 years?

2676

Please indicate the accuracy of this response.

Medium

Do you require your suppliers to use the Sustainable Packaging Guidelines (SPGs) or equivalent for your packaging?

Yes No N/A

Please tell us about any positive outcomes from your packaging reviews.

Successfully reviewed and trialled flexible film materials to meet APCO Soft Plastic Thresholds requirements/CE FLEX compliant

Do you believe applying the SPGs delivers business value to your organisation?

Yes No

Which of the following Sustainable Packaging Principles have been considered in reviews of your organisation's packaging against the Sustainable Packaging Guidelines (SPGs)?

Design for recovery

Yes No

Optimise material efficiency

Yes No

Design to reduce product waste

Yes No

Eliminate hazardous materials

Yes No

Use of renewable materials

Yes No

Use recycled materials

Yes No

Design to minimise litter

Yes No

Design for transport efficiency

Yes No

Design for accessibility

Yes No

Provide consumer information on environmental sustainability

Yes No

How many of the 2834 Tonnes of packaging have packaging that has been optimised for material efficiency in the last 5 years?

1985

Please indicate the accuracy of this response.

Medium

If yes, please tell us about any material savings you have made.

rPET for plastic tray and minimising the use of PET polymer for the plastic film and to meet CEFLEX compliance.

Supporting Evidence

Skin Pack lidding film and Pastry flow wrap film are now CEFLEX-compliant,
Reduced gauge of PET & PP trays,
CPET trays changed to natural,
We've started to remove the REDcycle logo and guidance to 'return to store' on our packaging, and replaced film to aligned with APCO Soft Plastic Threshold guidelines.

Criteria 3:

Recycled Content: 3 Advanced

1 Getting Started | 2 Good Progress | 3 Advanced | 4 Leading | 5 Beyond Best Practice

Do you have a policy or procedure to buy products and/or packaging made from recycled materials?

Yes No

Which of the following products that you either purchase or sell contain recycled materials?

- Primary packaging that you use to sell your products
- Secondary packaging that you use to sell your products
- Tertiary Packaging that you use to sell your packaging
- Your products
- Other items which you purchase
(e.g. office stationary & supplies, building materials such a bollards etc.)
- None of the above

How many 2834 Tonnes of packaging has at least some packaging that is made from recycled material?

1535

Please indicate the accuracy of this response.

Medium

If you do not currently use recycled materials in any of your packaging, please indicate why:

- Cannot find a supplier who provides recycled materials
- We cannot use recycled materials in contact with our product
- Cost is prohibitive
- Other (please specify)

Please specify

The raw material is not available in recycled content specifically for our SKUs that need PP tray. Also have limitations with some materials due to Food Contact Legislation.

- None of the above

Supporting Evidence

Criteria 4:

Recoverability: 3 Advanced

How many of your 2834 Tonnes of packaging have all packaging components that are recoverable (i.e. recyclable or compostable) at end-of-life?

2263

Please indicate the accuracy of this response.

Medium

How many of your 2834 Tonnes of packaging have separable components with mixed recoverability at end-of-life? (e.g. a jar that is recyclable with a lid that is not recyclable)

485

Please indicate the accuracy of this response.

Medium

How many of your 2834 Tonnes of packaging have been assessed in the Packaging Recyclability Evaluation Portal (PREP)?

2118

If you use compostable packaging, please indicate the type(s) of compostable certification (if any):

- Certified home compostable (AS5810)?
- Certified industrial compostable (AS4736)?
- Certified compostable to another certification (i.e. not AS5810 or AS4736)?
- Compostable (not certified)?
- None of the above

How many of your 2834 Tonnes of packaging are not recoverable at end-of-life and must go to landfill? (i.e. not recyclable or compostable)

86

Have you investigated if there are any opportunities to use reusable packaging?

Yes No

If yes, how many of your 2834 Tonnes of packaging have packaging for which all components are reusable?

0

Please give an indication on the accuracy of this response.

High

Which of the following reusable business to business items did your organisation utilise during the previous 12 month period?

- Pallets
- Crates
- Drums
- Intermediate Bulk Containers (IBCs)
- Other (please specify)

Please specify

- None of the above

Tick all that apply - Was this reused:

Internally (between your organisation's sites & facilities)?

Externally (with other organisations such as suppliers or customers)?

Pallets	<input checked="" type="radio"/> Internal	<input checked="" type="radio"/> External
Crates	<input checked="" type="radio"/> Internal	<input checked="" type="radio"/> External
Drums	<input type="radio"/> Internal	<input type="radio"/> External
Intermediate Bulk Containers (IBCs)	<input type="radio"/> Internal	<input type="radio"/> External
Other (specified above)	<input type="radio"/> Internal	<input type="radio"/> External

Does your organisation participate in any of the following closed-loop recovery programs/alternative collection systems for your packaging?

- Big Bag Recovery
- Terracycle
- Container Deposit Scheme (CDS)
- DrumMUSTER
- Other (please specify)

Please specify

- N/A (All our packaging is recovered through mainstream recovery systems)
- None of the above

Supporting Evidence

Criteria 5:

Disposal Labelling: 5 Beyond Best Practice

How many of your 2834 Tonnes of packaging have labelling on-pack to inform the consumer of how to correctly dispose of the packaging?

2834

Please indicate the accuracy of this response.

Medium

Which of the following labels does your company presently use?

- Australasian Recycling Label
- Mobius Loop/Recycling symbol
- Tidy man
- Written instructions
- Other (please specify)

Please specify

- None of the above

Supporting Evidence

Criteria 6:

On-site Waste: 4 Leading

Tick which of the following packaging materials you have on-site recycling programs for:

- Paper/cardboard
- Soft plastics
- Rigid plastics
- Timber
- Textiles
- Glass
- Metals
- Other (please specify)

Please specify

- All materials have recycling programs
- None of the above

Over the reporting period, how much of the waste your organisation generated on-site was diverted from landfill (was recycled, composted, reused or sent for energy recovery)?

46%

Please indicate the accuracy of this response.

High

Which of the following facilities are included in the above waste data?

- Offices
- Warehouses
- Stores

- Manufacturing Facilities
- Other (please specify)

Please specify

- None of the above

Supporting Evidence

Criteria 7:

Problematic Materials: 4 Leading

Over the reporting period, which of the following activities did you undertake to help reduce the impact of litter?

- Conduct regular clean ups
- Participate in Business Clean Up Day
- Sponsor a clean up day
- Undertook a litter education campaign
- Other (please specify)

Please specify

- None of the above

Please indicate which of the following problematic, unnecessary and single-use plastic packaging formats or materials your organisation has used over the last five years.

- Lightweight plastic shopping bags
- Fragmentable (e.g. oxo-degradable) plastics
- Expanded polystyrene (EPS) packaging for food and beverage service or retail fresh produce
- EPS loose fill packaging
- Moulded EPS packaging for white/brown goods or electronics
- Rigid polyvinyl chloride (PVC) packaging
- Rigid polystyrene (PS) packaging
- Opaque polyethylene terephthalate (PET) bottles
- Rigid plastic packaging with carbon black
- None of the above

Please indicate which of the following problematic, unnecessary or single-use plastic packaging formats or materials your organisation is actively working to phase out?

- Lightweight plastic shopping bags
- Fragmentable (e.g. oxo-degradable) plastics
- Expanded polystyrene (EPS) packaging for food and beverage service or retail fresh produce
- EPS loose fill packaging
- Moulded EPS packaging for white/brown goods or electronics
- Rigid polyvinyl chloride (PVC) packaging
- Rigid polystyrene (PS) packaging
- Opaque polyethylene terephthalate (PET) bottles
- Rigid plastic packaging with carbon black
- None of the above

Have you successfully phased out any of the above packaging formats or materials in the last 5 years?

- Lightweight plastic shopping bags
- Fragmentable (e.g. oxo-degradable) plastics
- Expanded polystyrene (EPS) packaging for food and beverage service or retail fresh produce
- EPS loose fill packaging
- Moulded EPS packaging for white/brown goods or electronics
- Rigid polyvinyl chloride (PVC) packaging
- Rigid polystyrene (PS) packaging

- Opaque polyethylene terephthalate (PET) bottles
- Rigid plastic packaging with carbon black
- None of the above

Supporting Evidence

Additional Information

- No additional information

Please use the space below to provide your feedback on your experience with this Annual Report

Describe initiatives, processes or practices that you have implemented during your chosen reporting period that have improved packaging sustainability

B&J continuously working to reduce our plastics footprint by 2025 as the company is committed to Australia's 2025 National Packaging Targets using the Sustainable Packaging Guidelines. This is by incorporating recycled content into our plastic packaging and designing & making all packaging to be recyclable or reusable by 2025. One of our key 2025 packaging targets is to reduce and/or eliminate the amount of virgin plastic we use in our packaging. Also, we started using CEFLEX-compliant film structures

Your full response can be found towards the end of this document.

Describe any opportunities or constraints that affected performance within your chosen reporting period

There are some inherent constraints on the selection of packaging. For example, supply issues on CEFLEX-compliant film from the suppliers as prices increased drastically.

Please use the space below to provide examples or case studies of exemplary packaging sustainability conducted by your organisation. The information provided in the boxes may be used directly in your public facing Annual Report and Action Plan. Submitted case studies might be used by APCO in the future to support other Members in achieving packaging sustainability.

Full Open Responses

Additional Information - Describe initiatives, processes or practices that you have implemented during your chosen reporting period that have improved packaging sustainability

B&J continuously working to reduce our plastics footprint by 2025 as the company is committed to Australia's 2025 National Packaging Targets using the Sustainable Packaging Guidelines. This is by incorporating recycled content into our plastic packaging and designing & making all packaging to be recyclable or reusable by 2025. One of our key 2025 packaging targets is to reduce and/or eliminate the amount of virgin plastic we use in our packaging. Also, we started using CEFLEX-compliant film structures e.g. flow wrap films for our Pastry products and lidding films for some of Core Meals products. In addition, the Sustainability SharePoint site was created and accessible for all employees to update them and learn more about Sustainability. Lastly, we have a baseline for packaging types used at TK, TKe (The Kitchen extension) and GA (Greenacre) site, and a starting point to reducing our environmental impact.
